

CDM coordinators

newmac acts as CDM Coordinators (planning supervisors) under the Construction (Design and Management) regulations.

As CDM Coordinators all the requirements necessary under the Regulations can be provided including the preparation of Health & Safety Files. We offer a proactive service helping clients, designers and contractors to comply with the Regulations.

Our Association of Project Safety qualified CDM Coordinators are competent, trained and experienced to act on behalf of clients across a range of projects from minor works up to multi million pound builds, with a great variety of construction scenarios including traditional methods, timber frame, large scale civil works, demolition and turnkey plant installation.

- Contractors competence and resource assessment
- Design risk management workshops
- Pre tender and pre-construction plan compilation
- Health and safety files

About **newmac**

newmac is a professional risk management practice with established competent practitioners specialising in helping clients to proactively manage the health and safety of their undertakings.

Please contact us to discuss your situation further.
